EDUCATION

The Pennsylvania State University - Hazleton, PA

Bachelor of Science in Engineering

Alternative Energy and Power Generation

Expected Graduation: May 2027

GPA: 3.50

Honors Program

TECHNICAL SKILLS

Software & Tools: AutoCAD, Fusion 360, SolidWorks, Arduino, Microsoft Excel, 3D Printing

Technical: CAD modeling, Additive Manufacturing, Process Improvement, SOP Writing, Quality Control,

Programming: C/C++ (Arduino)

EXPERIENCE

Insteel Wire Products. Hazleton, PA

May 2025 - Present

Engineering Intern

- Created **75+ 2D technical drawings** in AutoCAD for machine components.
- Designed **50+ 3D CAD models** in Fusion 360; supported prototyping with SolidWorks.
- Developed and implemented additive manufacturing solutions, reducing component costs by up to 97% and generating over **\$10,000 in annual savings**.
- Developed a comprehensive **Quality Control Training Guide** to standardize product testing and improve operator consistency.
- Analyzed shipping processes (forklift-to-truck operations), recommending workflow changes that reduced turnaround time.
- Created and revised Standard Operating Procedures (**SOPs**) and **Training Documentation**, and Lockout/Tagout (**LOTO**)

Broyan's Farm Market, Nescopeck, PA

December 2020 - August 2025

Manager

- Supervised and trained over 10 new employees in daily operations and customer service.
- Oversaw inventory management, cash handling, and store presentation.
- Collaborated with team members to streamline workflows and improve customer satisfaction.

LEADERSHIP & PROJECTS

Science and Engineering Club

President

August 2025 - Present

- Led hands-on STEM projects, including a **Bike Generator Demo** for campus open houses and the annual **Cardboard Boat Race**.
- Planned and completed a technical project series including a PCB design workshop, Arduino motion sensor builds, and a **Drone construction project** with custom PCBs and 3D-printed parts.

Alpha Alpha Alpha Honor Society, Penn State Hazleton

Member

April 2026 - Present

Honor society at Penn State Hazleton, recognizing first-generation college students for academic achievement.

HONORS RESEARCH

- **Awarded 1st Place** at the Spring 2026 Research Symposium; designed and built a solar tracking system, achieving a 17.5% improvement in energy yield over a fixed-angle baseline.
